## 2009 Hardware Vendors Directory

This Spring saw the new launch of many hardware advances and products, including Intel's Xeon Processor 5500 series, HP's Z Workstation Series, Lenovo's ThinkStation S20 and D20, plus new graphics cards like AMD's ATI FirePro V7750 and NVIDIA's new Quadro Professional line.

With so much to choose from, CAD professionals are sure to find something to help them get the most out of their software. Be sure to read the articles that accompany this Vendors Directory to learn more about all the new offerings.

And special thanks to this year's primary Hardware sponsor Intel. See their listing along with many others below.

### Processors

#### Intel

Intel, the world leader in silicon innovation, develops technologies, products and initiatives to continually advance how people work and live.

Intel pushes the boundaries of innovation so our work can make people's lives more exciting, fulfilling, and manageable. And our work never stops. We never stop looking for the next leap ahead—in technology, education, culture, manufacturing, and social responsibility. As the [Sponsors of Tomorrow](#), we strive to bring you leading edge products.

Whether you are a growing business or a consumer, our family of products such as the Intel® Xeon® Processor, Intel® Centrino® processor technology and Intel® Core™ i7 Processor will exceed your expectations.

Check out our latest and greatest offering, the new [Intel Xeon processor 5500 series](#).
